

ACAP[®]

Accounting Career Awareness Program

OPPORTUNITIES AS A CPA ARE COUNTLESS

There was a time in the history of the accounting profession when its members were thought of merely as “bean counters” and “number crunchers”. Today, however, the profession has evolved to encompass some of the most influential positions in Corporate America. Accountants are penetrating nearly every facet of the business community including management, consulting, finance, marketing, information systems and operations. Because of the huge responsibility placed on the accounting professional, the industry looks to attract the best and the brightest to the field. Pursuing a degree in accounting can dramatically increase your opportunities in the business realm. You can discover a whole new world in public accounting, private industry, government or education.

ACAP IS YOUR WINDOW INTO THE ACCOUNTING PROFESSION

The primary objective of the Accounting Career Awareness Program (ACAP) is to **introduce** high school students to accounting and related business fields. During a four-day campus residency, a select group of students will have the opportunity to explore the industry through workshops, group activities and site visits to area businesses. Participants will also have the privilege of meeting local business professionals who will share their personal experiences and offer tips for success. Ultimately, no matter what career the candidate pursues, success in the workplace requires managing money and resources intelligently, applying critical thinking skills, communicating effectively and maintaining high standards of professional ethics. ACAP focuses exclusively on these skills, which will help prepare students to become young professionals.

ACAP 2015

This year’s ACAP class will be held Monday, June 22, 2015 through Friday, June 26, 2015 at the University of Louisville, Belknap Campus.

The program is sponsored by the National Association of Black Accountants, Inc. (NABA) and the University of Louisville. ACAP is a fully supervised program backed with donations and grants from local businesses, CPA firms and government. **Students selected for the ACAP class will receive a full scholarship** which covers the cost of tuition, room, meals, books, supplies and transportation for the program.

The entire program is made possible through donations and dedicated volunteers

QUESTIONS?
