

# ACAP Kentucky 2011 - NABA Greater Louisville Chapter

The 2011 Kentucky ACAP included visits to Texas Roadhouse Headquarters, General Electric Appliance Park, the Louisville Federal Reserve Bank and the Louisville office of PricewaterhouseCoopers. The program also included an introduction to area colleges, a welcome reception sponsored by MSD, alumni cookout sponsored by KMPG, a trip to laser tag and to the bowling alley and an etiquette luncheon sponsored by the University of Louisville School of Accountancy. The program also included an accounting roundtable where professionals from public accounting firms, large and small companies, government (local and federal) came to discuss with the students the many paths available with an accounting degree. The students also engaged in a week long team competition; the culmination of this competition was a case study presentation made in front of the many of the ACAP board members as well as the students' parents. The program closed with a banquet where we awarded three scholarships, two from the Jeanette Twyman Memorial Scholarship Fund (David Carmicheal, Bryan Station High School and Jasmine Epps, Central High School) and one was donated by the program facilitator, Sherry Webb in honor of her uncle (Robyn Thompson, Central High School). There were 25 students that completed the residency week representing 7 Kentucky high schools. There were four chaperones from four colleges/universities that are either majoring in accounting or a related field and two of these chaperones are ACAP Alumni.

**Students from Paul Laurence Dunbar High School (Lexington, KY)**

**Students from Central High School (Louisville, KY)**

**Students from Ballard High School (Louisville, KY)**

**Students from Bryan Station High School (Lexington, KY)**
